

Objectives and expected activities of ENAGRA project

Agnieszka Wojciechowska
Warsaw University of Life Sciences

Beauvais, 27 June 2009

Basic data

- Warsaw University of Life Sciences (WULS), acting as project applicant
- Prof. Stefan Ignar – project coordinator
- RU coordinator
- UA coordinator

Main Beneficiaries

- Saratov State Agrarian University (SSAU), RU
- Buryat State Academy of Agriculture (BSAA), RU
- National University of Life and Environmental Sciences of Ukraine (NUBiP), UA
- Lviv National Agrarian University (LNAU), UA,

Partner Country institutions

- Ministry of Education and Science of Ukraine (MESU), UA
- Ministry of Education and Science of the Republic of Buryatia (MESRB), RU
- Ministry of Education and Science of the Republic of Buryatia (MESRB), RU

EU Partners

- University of Natural Resources and Applied Life Sciences (BOKU), AT
- Ghent University (GU), BE
- Institute EDUTER, FR
- University of Lleida (UdL), ES

EU Partner Institutions

- IROICA
- ICA

Project objective 1

- wider objective defined as “Ensuring targeted Partner Countries universities to gain capacity to offer education targeted towards the changing needs of the economic environment

Project objective 2

- To bring three cycle structure curricula and teaching methods at Project partner universities, in the priority discipline of environment, into line with the Bologna requirements by June 2011
- at four Partner agricultural Universities in Russian Federation and in Ukraine

Outcomes

- Developed/modernized three cycle curricula at Partner Universities
- Institutional capacity building-upgraded Partner universities capacities.
- Pilot student training
- Dissemination (IROICA and ICA)
- Sustainability

Activities

- 1.1 Assessment of existing curricula and training needs.
- 1.2 Elaboration of target curricula.
- 1.3 Development of courses.
- 1.4 Development of distance and e-learning methodology.
- 1.5 Approval of new programs by Partner Universities authorities.

Activities

- 2.1 Staff mobilities.
- 2.2 Short intensive courses for staff.
- 2.3 Upgrading teaching laboratories.
- 2.4 Library upgrading and data base creation.

- 3.1 Pilot study programs implemented.
- 3.2 Study programs evaluation and upgrading.

- 4.1 Dissemination within consortium
- 4.2 Dissemination beyond consortium

Activities

- 2.1 Staff mobilities.
- 2.2 Short intensive courses for staff.
- 2.3 Upgrading teaching laboratories.
- 2.4 Library upgrading and data base creation.

- 3.1 Pilot study programs implemented.
- 3.2 Study programs evaluation and upgrading.

- 4.1 Dissemination within consortium
- 4.2 Dissemination beyond consortium

4.2 Dissemination beyond consortium

- information on the project results and courses established during the project
- during IROICA and ICA annual conferences and other activities resulting from the statutes of both organizations (workshops, web-sites, portals on MSc courses etc)
